UHF RFID Tag RRUHFT01

Features & Benefits

- Available in various memory sizes
- Case level product
- Dual dipole design with high performance
- Orientation insensitive
- Customized tags available for different applications
- International Standards Complaint

RRUHFT01 is UHF Tag working on 865 to 868 MHZ. The UHF tags are compatible with ISO 18000 - 6C and available with various Ic's in the market.

They are available in various size and shapes for best performance with the end user application system. For eg: Tags for Metal

Applications

- Supply chain management
- Asset tracking
- Garment tracking
- Inventory Management
- Retail Applications
- Warehouse Management

Specifications

Parameter	RRUHFT01
Operating Frequency	865 to 868 MHz
Antenna	Single / Dual Dipole
Data Retention	10 Years Minimum
Antenna Material	Aluminium
Memory	96/512/2048 bits
Operating Temperature	-10°C to +70°C
Dimensions	Available in various dimensions and shapes

“RapidRadio with its technical expertise in RFID technology and its physics focuses on designing, developing, innovating and deploying RFID hardware solutions”
