Why RapidRadio….

- Over 11 years of experience in providing RFID hardware solutions to more than **100 libraries** and seamless integration with multiple library management systems including KOHA, SOUL 2.0, Liberty 3.0, VTLS Virtua, Alice, SLIM21, Autolib etc. using global standards like NCIP V2.0 & SIP 2.0
- RapidRadio have more than 25 Libraries where our RFID Hardware is integrated with Koha Library Management Software in India.
- Systematic approach to after sales support & **affordable AMC** with positive attitude, keeping end **customer objectives always at top most priority**
- Single point of contact to execute tasks right from data entry of books to **implementing full fledged Library automation** project including RFID and surrounding technologies like CCTV, Attendance management etc in consortium with leading technology providers
- We believe in complete client satisfaction and hence as a **RFID hardware manufacturer, focus more on developing robust & stable products** which can run for years without support & AMC at a very cost effective price, thus resulting in higher EOI.
