RFID Tagging Device RRHFLB04

Specifications

Parameter	RRHFLB04
Operating Frequency	13.56 MHz
Antenna	Inbuilt
Protocol	ISO 15693, ISO 14443A
Tag Supported	ICODE, TAG IT, Mifare
Supply voltage	USB powered
Read Range	Upto 50 mm
Interface	USB
Weight	55 gms approx.
Storing Temp	-30° to +80° C
Operating Temp	-10° to +65° C
Dimension	99 x 57 x 16 mm

Overview

RRHFLB04 is a plug and play handy RFID reader mainly used for tagging of books and smart card registration.

It can be easily shifted and seamlessly installed between computers, as and when needed. Its lower read range ensures single tag operations without detecting surrounding tags.

Features & Benefits

- Inbuilt Antenna
- HID compliant device
- Low cost
- Smaller size saves desk space
