Digital Entry Register RRHFLB05

Specifications

Parameter	RRHFLB05
Operating Frequency	13.56 MHz
Antenna	Inbuilt
Protocol	ISO 15693, ISO 14443A
Tag Supported	ICODE, TAG IT, Mifare
Supply voltage	5 VDC
Read Range	Upto 50 mm
Interface	Ethernet
Weight	130 gms
Storage Temp	-20° to +80° C
Operating Temp	0° to +65° C
Dimension	123 x 80 x 34 mm

Overview

RRHFLB05 is a LAN based RFID reader mainly used for keeping track of In/Out patron traffic.

It is mainly intended to replace the popular physical entry register placed at library entrance. It will facilitate accurate data of patron traffic through customized software reports.

Features & Benefits

- Paperless entry register
- Rapid patron entry
- Enhanced data accuracy
- Insightful reports
